# Key benefits

Funded shared ground arrays makes ground source the same price as air source.

Ground source is more appealing; units are low noise, installed inside, and capable of cooling.

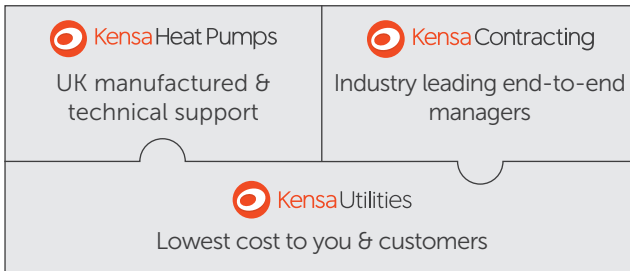

We emulate arrangements you are familiar with in the gas network with our funded ground array.

Funded by  
Kensa Utilities

Installed by  
Kensa Contracting

Manufactured by  
Kensa Heat Pumps

# Unique proposition

Impact on programme?  
*"Well a good answer to that is, none."*  
 Willmott Dixon  
 Kensa Contracting client since 2020

# Proven delivery

Kensa has installed 5000+ ground source heat pumps, more than anyone in the UK, and has funded ground arrays across many sites, including:
